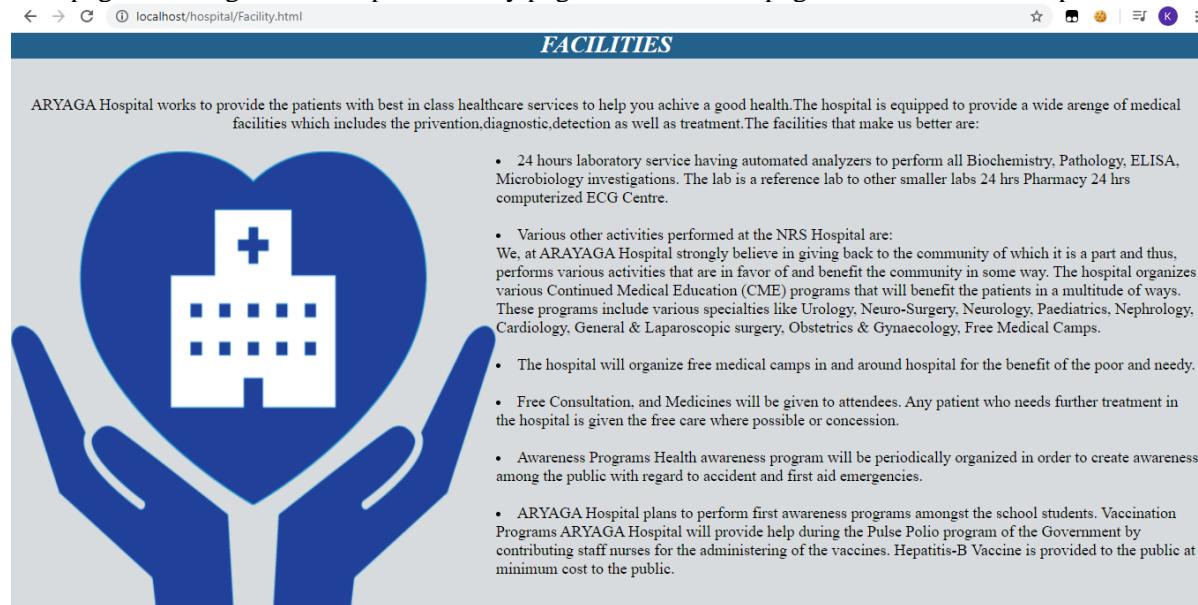

Figure 8: Facility page

This page is having in our hospital facility page. It is inform 24x7 ICU for life saving emergencies, Full body checkup, Community Program, Basic life Support training or Education etc. and Quick links have in this page for department page and doctors information.

24x7 ICU for life-saving emergencies

Accidents don't wait for a particular time. Accidents and emergencies can occur at any hour of the day. Keeping this in mind, the hospital provides 24x7 ICU services for all the emergencies with the best healthcare services. We provide assistance for life-saving emergencies which include:

- Heart attack
- Brain attack
- Hypertensive crisis, like encephalopathy
- Bronchial Asthma & Copd Exacerbations
- Seizures with status Epileptics

Full Body Checkup

One shouldn't remember the hospital only in the dire need. Every individual should get a complete body checkup done on a regular basis. We, at the ARYAGA Hospital, provide complete body checkup services. This checkup will include all the basic tests that are to be performed and consultation with the Physician expert as well, ensuring good health of the public.

- Preventive Care
- Basic Life Support training or Education
- Top quality indoor facilities

Community Program

The hospital also facilitates CAD reversal through lifestyle modification. This can be achieved with the help of the advice of our experts and their guidance. Individual understanding of the issues and personalized care and guidance is provided here which ensures the best results.

Basic Life Support training or Education

All the residents of nearby places, like Hinjewadi IT park as well as the residents of Wakad, can utilize this service provided by us to get the best education or training in the field of basic life support.

4.7. Details of Appointment page

This page is our hospital appointment page. Those who want to get an appointment at our hospital will have to fill out the appointment form from here.

Figure 66: Appoinment page

After completing the entire form, clicking on the submit button will give you a PDF of your name appointment letter. You need to download that PDF / appointment letter or you can printout.

The screenshot shows a web-based appointment booking form. The fields include:

- Gender:** Male (selected)
- Age:** Enter Your Age
- Department:** Diabetes Clinic
- Date:** dd-mm-yyyy
- Time:** 08:00-08:30
- Buttons:** Submit, Reset

Below the form, there are three sections: Quick Links, Quick Links, and Contacts.

Quick Links	Quick Links	Contacts
Diabetes Clinic	Epilepsy Clinic	71, Tollygunge Circular Rd, Behind Sital Sadan Building, Ajay Nagar, Buroshibtalla, New Alipore, Kolkata, West Bengal
Hypertension Clinic	Dental Treatment	700053

Figure 67: Appointment page

This is the PDF / Appointment Letter that will show the page after submitting the appointment form. You will have to download / printout. You will show what you wrote in this form on this page, such as your name, mobile number, email Eid, gender, age and your appointment date, time, and appointment of a department doctor.

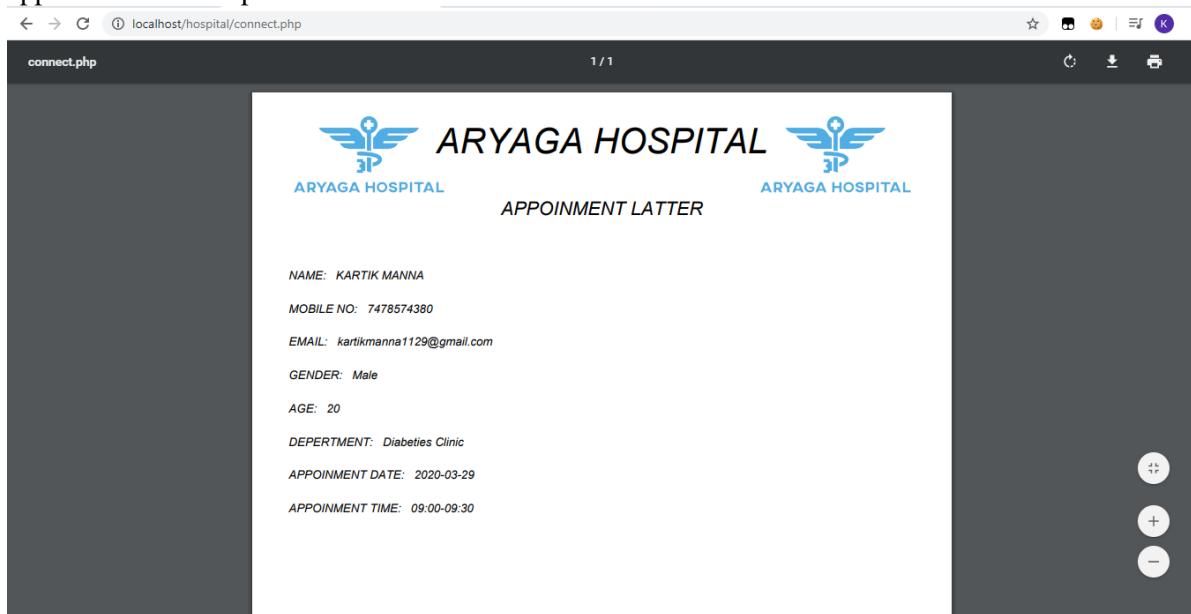

Figure 68: Appointment latter page

4.8. Details of Appointment Database

This is our hospital's online appointment database page. Those who fill out the form in the online appointment will have entry in their database.

The screenshot shows the phpMyAdmin interface for a MySQL database named 'hospital'. The left sidebar lists databases like 'information_schema', 'mysql', 'performance_schema', 'phpmyadmin', and 'test'. The 'appointment' table is selected under the 'hospital' database. The main area displays the data from the 'appointment' table:

5. Conclusion and Scope of Further Study

The project Hospital Management System (HMS) is for computerizing the working in a hospital. It is great improvement over the manual system. The computerization of the system has speed up the process. In the current system , the front office managing very slowly. When filling out the appointment form, our system checks that your input data is true or false. After submitting the appointment form, our system will give you a PDF of an appointment letter. Where your name, mobile number, email id, gender, age, department, appointment date and time will be. Once you submit the appointment form, your input data will be saved in our system. It is provide doctor's information's of our hospital. It is provide information of our hospital.

The proposed system is Hospital Management System. We can enhance this system by including more facilities like pharmacy system for the stock details of medicine in our hospital pharmacy and laboratory system where your lab tests reports. And patient's status check through the patient's ID.
